JPS is a member of the ADC (Association of Diving Contractors International). Our teams have more than 25 years of field experience in underwater engineering, maintenance and installation procedures. They are HASC, OSHA 40 and TWIC certified.

In an emergency, one of our teams can be on site within 24 hours. We maintain three 24-hour hotlines for your convenience:

Land: 603-744-6400 Mobile: 850-624-3311 -3312

Yearly Maintenance and Dive Program

You can protect your investment in JPS baffles and extend their life with our Yearly Maintenance and Dive Inspection Program. When you join, we will schedule an inspection and perform the necessary maintenance, including replacement of worn or damaged floats and toggles, re-clamping of loose rods or end caps, repairing punctures or tears and replacing defective anchors or tielines. We'll provide you with a detailed report within 30 days. Invoices will be based on time and materials. JPS professional divers are the most qualified to maintain our baffles. Let our expertise work for you.
